

Managing a complex condition?

Let's take it on together.

Experience a different kind of pharmacy.

At CVS Specialty®, we do more than just provide medication. We provide specialized care for over 75 conditions. And make it as easy as possible to get the medications you need. You also get convenient ways to manage your health online or with our mobile app. To us, your health is a priority.

What makes specialty medications different?

They treat complex, chronic conditions. And tend to cost more. Some require special storage, like refrigeration. Or special administration, like an injection.

Get personalized support 365 days a year.

You get a CareTeam led by pharmacists and nurses who are specially trained in your condition. They'll check dosage and make sure you know how to take your medication. They'll remind you to refill. And help with side effects. Have questions? Just ask.

Count on us for insurance and financial support.

We'll work with you and your prescription plan to help lower your out-of-pocket costs. We can also help you find and apply for financial assistance programs.

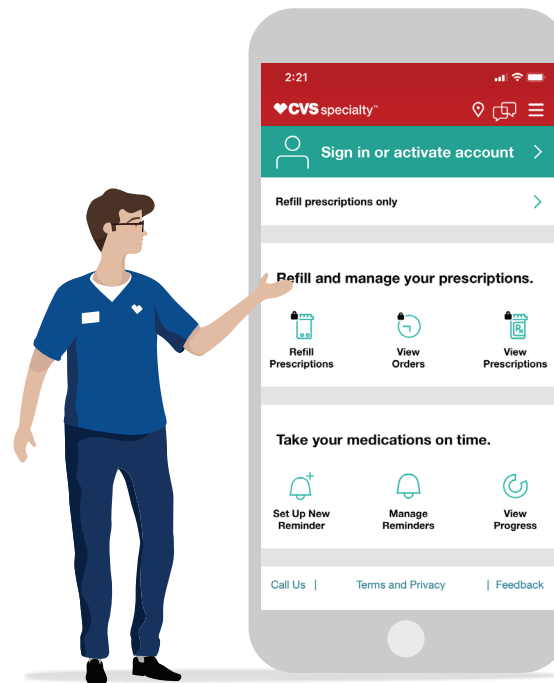

Choose convenient pickup or delivery.

We make it as easy as possible to get the medication you need – when you need it. Choose pickup at any CVS Pharmacy.* Or get delivery to your home or other location.

Save time with our convenient digital tools.

You can manage your prescriptions online or with our mobile app anytime. Order and track refills. Send your CareTeam a secure message. Make payments and view history. Sign up for refill reminders, order status updates and more by email or text.

*Where allowed by law. In-store pick up is currently not available in Oklahoma. Puerto Rico requires first-fill prescriptions to be transmitted directly to the dispensing specialty pharmacy. Products are dispensed by CVS Specialty and certain services are only accessed by calling CVS Specialty directly. Certain specialty medication may not qualify. Services are also available at Long's Drugs locations.

Your privacy is important to us. Our employees are trained regarding the appropriate way to handle your private health information.
