

# Your member ID card is always available with *My Account*

Your member ID card identifies you as a CareFirst member. It includes important information your provider will need when arriving for an appointment and before receiving services, such as your plan type and copay. With *My Account*, your member ID card is always available—even if the card is not with you!

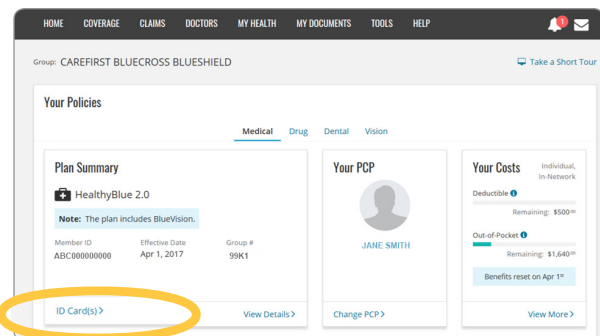

View, print, email or replace a lost card. You can do it all and more through *My Account*.

Not registered? Visit [carefirst.com/myaccount](https://carefirst.com/myaccount) to create your account today!

## View your card

From your computer or mobile device, go to [carefirst.com/myaccount](https://carefirst.com/myaccount) and log in. On the home screen, select *ID Card(s)*.

If you have more than one type of coverage with CareFirst, for example medical and dental coverage, you may see more than one card.

## Print or email your card

First, select the card(s) you would like to print or email.

Then, choose *Share*. A PDF document will open in your web browser.

Then, follow the steps below as needed depending on the tool (computer or mobile device) you are using.

### From a computer

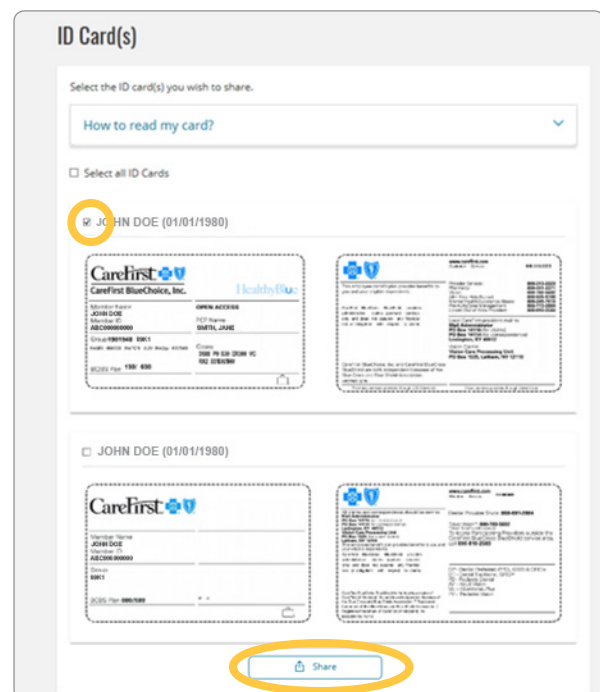

**Print**—You can print directly from the PDF using the same process you follow when printing documents from your computer.

**Email**—Save the PDF to your computer. Then, using your favorite email tool, begin a new email, attach your saved file and send.

### From your mobile device or the CareFirst app

Unlike on your computer, your card will display as an image and not as a PDF document. Follow the standard procedure required by your mobile device to email or print images.

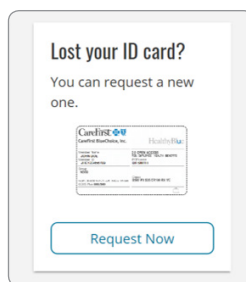

The image shown is an example only. Your device may require a different method to email an image.

## Order or replace a card

If you have misplaced your card, or if you would like an additional card, log in to *My Account* and choose **ID Card(s)**.

From that screen, select **Request Now** to order a replacement card.

## Understanding your card

For a listing of the codes you may see on your card and their meaning, select **How to read my card?**

Below is a general overview of additional items that may be included on your card. Your card may contain different information depending on your plan.

ID Card(s)

Select the ID card(s) you wish to share.

[How to read my card?](#)

<b>CareFirst BlueChoice</b>	
<b>1</b> Member Name <b>JOHN DOE</b>	<b>PLAN NAME</b>
<b>2</b> Member ID <b>ABC000000000</b>	<b>4</b> PCP Name <b>SMITH, JANE</b>
Group <b>99K1</b>	
<b>3</b> RxBIN 004336 RxPCN ADV RxGrp RX7546 BCBS Plan <b>080/580</b>	<b>5</b> <b>P\$30 S\$40 CC\$30 UC\$60 ER\$300</b> <b>CD\$1500 RX AV</b>

- 4** Plan and PCP name—your plan and primary care provider's name
- 5** Abbreviations—correspond to your plan copays. See **How to read my card?** (chart below) for an explanation of each code

- 1** & **2** Member ID & Group #—these are the numbers providers will ask for to verify your coverage
- 3** Codes pharmacies use to route claims for payment
